Feather Flag Assembly Instructions

Step 1

Check you have everything in the Kit. Use the check list at the bottom

Step 2

Take your poles out of the bag and insert all of the poles together.

Step 3

Take the printed flag out of the bag and loop the bungee cord through they eyelet.

Step 4

Now slide the flag pole up the black sleeve making sure the flag is pulled nice and tight.

Step 5

Tie the bungee cord off on the bracket at the bottom of the flag pole.

Step 6

Put your ground spike into soft ground then slide your flag over the top.

Max Wind Speed 25mph
